

UNOPS ROSTERS TO FIND THE VERY BEST TALENT!

At UNOPS, we strive for excellence! We believe in placing the right people in the right place at the right time. As an organization we support and develop our internal talent and recruit the very best externally.

In support of excellence, we have developed a more rigorous process to create strong rosters of highly qualified professionals.

We work in challenging environments around the world including: the Democratic Republic of Congo, Haiti, Afghanistan, and Iraq. We best serve people in need if we can send talented people to these regions quickly. If you qualify for one of our rosters, there is a strong possibility that you will be hired to make a difference with a UNOPS initiative around the world.

The types of UNOPS Rosters and how they work:

We will establish a number of global rosters for international contract positions in our core focus areas of procurement, infrastructure and project management in 2016. The process to qualify is as follows:

1. If considered, based on a match between your profile and the core requirements for the role, you will be invited to complete assessments specific to the role.
2. If you are successful, we will conduct a reference check with at least two references from your most recent positions.
3. An independent internal committee will then review the process.
4. You will be notified of the results and if successful, you will become a Roster member.

Being a member of a UNOPS Roster means:

- You will be considered first for external recruitments.
- You are not one of many on our list because we establish our global rosters based on average annual recruitment figures, accounting for unavailability of roster members for a particular position. You will be regarded as a unique asset!

Ever wonder why descriptions for Rosters are so generic?

We recruit people with a specific skill-set for rosters, which are applicable to a wide variety of projects at duty stations around the world. Each request for recruitment from a roster outlines specifics on the project, including location and tasks.

We welcome your talent and encourage you to apply to join our rosters!
