# ANNEX II – DISTRIBUTION OF COUNTRIES AND TERRITORIES

Throughout this report, the terminology "country" or "countries" refers to countries and territories.

Country names, as well as their designation by geographic region, follow the Standard Country of Area Codes for Statistical Use, referred to as the M49 standard and prepared by the Statistics Division of the UN Secretariat. <sup>39</sup>

There is no established convention for the designation of development status countries or areas in the United Nations system. However, for analytical purposes, this report classifies all countries into one of four broad categories: developed countries; developing countries; countries with economies in transition, and least developed countries (LDCs). The ASR follows country categorizations as defined by UNCTADstat,<sup>40</sup> with the exception of LDCs, for which M49 is followed.

The designations employed do not imply the expression of any opinion whatsoever on the part of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. The assignment of countries or areas to specific groupings is for statistical convenience and does not imply any assumption regarding political or other affiliation of countries or territories by the United Nations.

<sup>39</sup> For more information on the M49 classification, visit: https://unstats.un.org/unsd/methodology/m49/.

<sup>40</sup> For more information on UNCTADstat country designations, visit http://unctadstat.unctad.org/EN/Classifications.html.

- Sark
- Slovakia
- Slovenia
- Spain
- Svalbard and Jan Mayen Islands
- Sweden
- Switzerland
- United Kingdom of Great Britain
- and Northern Ireland
- United States of America

#### **ANNEX III – SECTORS AND CATEGORY NAMES**

Category analysis in the ASR is based on the United Nations Standard Products and Services Code (UNSPSC®) standard. The UNSPSC is a publicly available multi–sector standard for classification of goods and services. More information can be found at http://www.unspsc.org

The report refers to Sectors, as defined below, as well as procurement categories based on the UNSPSC hierarchy.

#### Sectors

The ASR uses sector grouping of goods and services based on areas of focus for the UN. These sectors are:

- Clean Water and Sanitation
- Climate Action
- · Construction and Engineering
- · Consultancy, Administration and Operations
- Education
- Energy
- Food and Farming
- Health
- Humanitarian Aid
- Peace and Security
- Transport
- Other Goods and Services

#### **UNSPSC** categories

UNSPSC codes are divided into a four-level category hierarchy:

- Segment
- Family
- Class
- Commodity

While data is requested at the most specific level possible (Commodity), there are limitations in organizations' ability to record and retrieve this information. Therefore the report generally refers to UNSPSC categories at the Segment and Family levels.

Codes can also be grouped according a "transformation continuum of product categories", <sup>42</sup> as described by UNSPSC. These groups are:

- Raw Materials (segments 10-15)
- Industrial Equipment (segments 20–27)
- Components and Supplies (segments 30-41)

- End Use Products (segments 42–60)
- Services (segments 70–94)
- Other (segments 64, 95 and unspecified goods and services)

The table below shows the UNSPSC® codes used in this report at the segment level – the highest level in the UNSPSC® hierarchy – grouped by the UNSPSC groupings above. There are some specific commodities which are reported in different sectors to other goods and services within the same UNSPSC segment or family. For example: the commodity 49121508 "Mosquito nets" is reported under the Health sector and 49121503 "Tents" is within the Humanitarian Aid sector. Both are otherwise included in the UNSPSC family 49120000 "Camping and outdoor equipment and accessories" within UNSPSC segment 49000000 "Sports and Recreational Equipment and Supplies and Accessories".

Some minor adaptations are made to the UNSPSC code–set for presentation in the ASR in order to improve the representation of procurement by UN organizations. Changes of note are:

- Renaming the UNSPSC segment 51000000 from "Drugs and Pharmaceuticals" to "Pharmaceuticals incl. Contraceptives and Vaccines"
- Renaming the UNSPSC family 51350000 from "Estrogens and progestins and internal contraceptives" to "Contraceptives incl. condoms, estrogens, progestins"
- Categorising "53131622 Condoms" under the UNSPSC family 51350000 "Contraceptives incl. condoms, estrogens, progestins" within the segment 51000000 "Pharmaceuticals incl. Contraceptives and Vaccines"
- Renaming the UNSPSC segment 25000000 from "Commercial and Military and Private Vehicles and their Accessories and Components" to "Motor Vehicles and their Accessories and Components"
- Renaming the UNSPSC segment 46000000 from "Defense and Law Enforcement and Security and Safety Equipment and Supplies" to "Law Enforcement and Security and Safety Equipment and Supplies"
- Renaming the UNSPSC segment 50000000 from "Food and Beverage and Tobacco Products" to "Food and Beverage Products"
- Renaming the UNSPSC segment 92000000 from "National Defense and Public Order and Security and Safety Services" to "Public Order and Security and Safety Services"

Some further simplifications are made to some other segment titles for display purposes in some data tables and charts. These are set out in the table below.

UNSPSC Title	Name displayed in charts and tables	UNSPSC Segment Code
Raw Materials
